Please visit the Radio HF web page at: http://www.radiohf.ca http://www.radiohf.ca/

The Radio HF Internet Newsletter is distributed monthly, free of charge, to subscribers by e-mail. The Newsletter is a collection of web sites specifically related to radio (AM/FM, shortwave, Internet radio, amateur radio, scanning and CB), communications, telecommunications, radio memorabilia and collectibles, media, journalism, science, technology, space and astronomy, weather, transportation, plus some fun things thrown in for good measure! Each edition includes links to web sites submitted by subscribers or by the editor. All sites are reviewed, verified and presented to you, with the URL, and a brief description of each site.

The Newsletter arrives in your in-box as an easy to read e-mail as well as an attached PDF version, with no fear of viruses. The subscriber list is secure, private and confidential. It will never be sold, redistributed or displayed.

Subscribers are encouraged to submit web sites for inclusion in future editions of the Newsletter. All contributors whose sites are published will receive a 2% discount on their next purchase from Radio H.F. The e-mail address for all contributions, comments, and subscription requests is hfnewsletter@yahoo.com mailto:hfnewsletter@yahoo.com

Welcome to the January 2017 issue the Radio HF Newsletter.
I hope that your holiday season was a good one. I wish you and yours a very Happy New Year. Let's hope that 2017 brings you health and happiness.
The year went by very quickly, as they seem to do as we grow older. The winter is young here in eastern Canada but, already, we've experienced a number of snowfalls and some very cold temperatures. This year seems to be making up for some mild winters that we've had over the past few years.

This edition of the Newsletter kicks off our 19th year of publication. Some of you have been with us since the very beginning. Others have joined us along the way. We continue to welcome new members each month. I encourage you to share this Newsletter with others. If you have friends or family members who would like to receive the Newsletter each month, simply pass along their name and e-mail address and I'll gladly add them to the list. The more the merrier!

Have you made any New Year's Resolutions, or have you already broken some? Why not make a resolution today to send me at least one weblink each month in 2017. Imagine if everyone did that? Putting this newsletter together each month would be a snap!

Our Monthly Special Zone for January includes web pages on Martin Luther King Jr. Day, the U.N. International Holocaust Remembrance Day and Chinese New Year.

This month's virtual voyage around the world, in the "Where in the World Zone", takes us to east Africa, to the country of Tanzania. Officially the United Republic of Tanzania, it is a large country within the African Great Lakes region. Parts of the country are in Southern Africa. It is bordered by Kenya and Uganda to the north; Rwanda, Burundi, and the Democratic Republic of the Congo to the west; Zambia, Malawi, and Mozambique to the south; and by the Indian Ocean to the east. Mount Kilimanjaro, Africa's highest mountain, is in northeastern Tanzania.

Please share some of your favourite websites with us. I'd be happy to include them in a future edition of the Newsletter. Let's kick off 2017 with this month's edition.

## NEW FROM YAESU

FT-991A All-Band Multimode Portable Transceiver

The Yaesu FT-991A provides sophisticated operation on 160 to 6 meters plus coverage of 2 meters and 70 cm! The new 60 meter band is also supported. It is a compact, lightweight package suitable for portable, mobile and base installations. The built-in antenna tuner (for 160-6m) uses a LC switching network that features a 100 channel memory to reduce tuning time when changing frequency. At just 9.7 pounds this robust full featured mobile/portable radio is ready to go when and where you are! The menu mode allows you to tailor the operation of the radio to your preferences.
Two important enhancements over the original FT-991 have been added to this next-generation FT-991A version:
- Dynamic real-time spectrum scope
- Multi-color waterfall display

Full details on the Yaesu FT-991A are available on the Yaesu webpage at

## 30TH ANNUAL WINTER SWL FEST

http://www.swlfest.com http://www.swlfest.com

VIA Sheldon Harvey, Greenfield Park, Quebec

The Winter SWL Fest is a conference of radio hobbyists of all stripes, from DC to daylight. Every year scores of hobbyists descend on the Philadelphia, Pennsylvania suburbs for a weekend of camaraderie. The Fest is sponsored by NASWA, the North American Shortwave Association, but it covers much more than just shortwave; mediumwave (AM), scanning, satellite TV, and pirate broadcasting are among the other topics that the Fest covers. For 2017, the 30th Annual Winter SWL Fest will have three days of sessions, March 2, 3 and 4, 2017. Full details on registration and hotel reservations are found on the webpage. Hotel rooms disappear quickly so reserve ASAP. Radio HF will be there!

http://webpages.charter.net/n9ewo2/ http://webpages.charter.net/n9ewo2/

VIA Thomas Witherspoon, Asheville, North Carolina

Welcome to "Dave's Radio Receiver Page". Here is my little spot on this earth to pass along my experiences and or comments about "Radio Receivers", as well as other gizmos that I use in my radio monitoring / recording ventures. My main focus is in the "Shortwave" part of the radio spectrum. A few other radio related items have been thrown in too, including amateur radio equipment reviews and views that may not be directly related.

The ARRL Operating Manual
11th Edition
Edited by Mark J. Wilson K1RO
240 Pages
ISBN: 978-1-62595-059-8

For all the daily use of computers now in and out of the radio hobby, I find there are still some things that are still better done by bringing pen to paper. Since I was first licensed in 1976, I have made use of The ARRL DXCC List as a simple and reliable tool to keep track of my movement to DXCC and beyond. My various editions of this short book cover my path to 10, 15 and 20 meter DXCC as well as Mixed, Phone and CW Awards. As I write this I am just a few short on 40 and hoping this Winter season will let me really fill in the log for 80 Meters DXCC. Having a handy list of current DXCC Entities where I have marked off those I have worked and those who have QSLed makes it easy to go hunting for the ones that are not in my log. It is a great tool for playing “Hunt and Pounce” during DX Contests. If you hope to hang that Wallpaper that every ham admires, you will want a copy of The ARRL DXCC List at your operating desk.

Available in the US from the American Radio Relay League and in Canada from Radio HF

## THE GENERAL ZONE

## NATION MASTER

http://www.nationmaster.com http://www.nationmaster.com

VIA Sheldon Harvey, Greenfield Park, Quebec

Nation Master is a global team of passionate stat geeks, dedicated to the mission of bringing facts to the world of geopolitics, economics, geography, defence and culture. We believe that statistical literacy should be a core part of education. In the information age, everyone needs to be able to interpret data. If you leave it to someone else, you’re risking your future.

## THE NATIONAL SNOW AND ICE DATA CENTER

http://nsidc.org/ http://nsidc.org/

VIA Sheldon Harvey, Greenfield Park, Quebec

Seeing as it seems we're in for a long, cold and snowy winter, I thought this site would be appropriate and timely. The National Snow and Ice Data Center (NSIDC) supports research into our world's frozen realms: the snow, ice, glaciers, frozen ground, and climate interactions that make up Earth's cryosphere. NSIDC manages and distributes scientific data, creates tools for data access, supports data users, performs scientific research, and educates the public about the cryosphere.

## RADIO H.F. PUBLICITY ZONE #3

What is new in books & publications from the American Radio Relay League, the Radio Society of Great Britain, and other publishers?

ARRL Operating Manual - 11th Edition
Talking to friends. Serving your community. Chasing DX. Adding a new band. Trying a new mode. Working a contest. Taking your radio out in the field. These are just a few of the exciting and fun on-air operating activities to try once you have your license in hand and have mastered the basics.
The ARRL Operating Manual for Radio Amateurs is the most comprehensive guide to Amateur Radio operating — things you can do on the air with your gear. In some cases, you may need to pick up new software or another radio, antenna, or accessory, but in many cases you already have the tools you need to get started. Each topic has been written and updated by experienced hams who are active on the air. They are happy to share what they have learned, so that you can get involved too.
